Hours

Computer Science, MSCS-Align (Arlington)

Master of Science in Computer Science—Align students come from a wide variety of backgrounds, with undergraduate majors including math, biology, history, engineering, and classics. The program begins with a two-semester introductory sequence, which provides the foundational knowledge for students from nontechnical backgrounds to succeed. Students have an opportunity to acquire both the knowledge needed to transition into a new career and the practical skills to build the next great app.

MS Thesis Committee

The MS thesis committee must satisfy the following conditions:

- 1. A total of three members, including the advisor.
- 2. Two members from Khoury College of Computer Sciences (or affiliated to Khoury).
- 3. At least one member who is at arm's length from the particular work in the thesis. This means that there should be at least one member who isn't a co-advisor on the thesis.
- 4. External members are allowed but not required.

More members (internal or external) can be added as readers to the committee, so long as the above minimum requirements are fulfilled.
