

Accelerated Degrees

The School of Law offers a PlusJD pathway that allows students to accelerate the attainment of the JD degree by applying School of Law coursework completed as an undergraduate toward both the undergraduate and JD degrees. Students pursuing the PlusJD pathway are expected to complete all undergraduate degree requirements before they begin their first-year JD courses, with the exception of requirements that may be fulfilled by these JD courses. Interested students should consult their advisor during their freshman or sophomore years. See the PlusJD program (<https://law.northeastern.edu/admissions/jd/application-process/plusjd/>) for additional information.
