

Applied Machine Intelligence, Graduate Certificate (Boston)

The Graduate Certificate in Applied Machine Intelligence focuses on artificial intelligence and data mining. With the proliferation of data across all sectors of the global economy, individuals need to know how to harness data for continuous analysis and improvement. The graduate certificate is designed to provide students with an opportunity to gain knowledge, skills, and tools across a multitude of data applications, strategies, and systems technologies utilized in AI.

Program Requirements

Complete all courses and requirements listed below unless otherwise indicated.

Required Courses

Code	Title	Hours
AAI 6600	Applied Artificial Intelligence	3
AAI 6610	Applied Machine Learning	3
AAI 6620	Applied Natural Language Processing	3
AAI 6630	Applied Computer Vision	3

Program Credit/GPA Requirements

12 total semester hours required

Minimum 3.000 GPA required
