

# Education Administration, MEd (Boston)

The Master of Education in Education Administration program provides a world-class program in administration within education and learning organizations that is designed to prepare students worldwide to excel in their chosen profession. The curriculum emphasizes developing people, as well as managing crises, budgets, enrollment, accreditation, and student records. With a focus on experiential learning, the program offers dynamic opportunities for learners with varying degrees of work experience to practice their knowledge globally and collaboratively while implementing traditional and innovative education administration concepts in real-life complex projects.
