

Finance and Accounting Management, BS (Boston)

The Bachelor of Science in Finance and Accounting Management degree program offers students an opportunity to obtain a broad understanding of the role that business plays in the world economy along with a strong focus on accounting and financial management. Students also take courses in the major areas of business so that, as they move into managerial positions, they have the understanding and skills to work across functional areas.

Students take courses such as financial reporting, managerial accounting, intermediate accounting, and cost accounting, as well as tax and audit. They also complete courses in the key areas in finance: corporate and managerial finance, working capital management, and investments.

Graduates may pursue careers in the private, nonprofit, and government sectors. They work in the cost accounting and budgeting areas, in short-term or long-term asset management, and in financial planning and security analysis.

Program Requirements

Complete all courses listed below unless otherwise indicated.

Universitywide Requirement

Minimum 120 total semester hours required

Minimum 2.000 GPA required

Students must earn a minimum of 60 Northeastern University semester hours in order to receive a bachelor's degree.
