

Speech-Language Pathology and Audiology, Minor

The clinical SLPA minor seeks to prepare students for admission into a graduate program in speech-language pathology or audiology. In particular, students in this minor are on a track that, if supplemented with certain elective choices within their major, would meet all admissions requirements for our department's own MS Speech-Language Pathology (<https://catalog.northeastern.edu/graduate/health-sciences/clinical-rehabilitation-sciences/speech-language-pathology-ms/>) program.

The clinical SLPA minor consists of five department-specific SLPA core courses.

Students pursuing this minor are advised to consult early and regularly with their academic advisors in order to ensure a timely completion of the combination of their major and the clinical SLPA minor requirements.

Students pursuing this minor who wish to go to graduate school at institutions other than Northeastern are advised to carefully check admissions requirements for those programs.

Note: This minor is not open to students majoring in the Bachelor of Science in Speech-Language Pathology and Audiology, those pursuing a combined major with Speech-Language Pathology and Audiology, or those pursuing a minor in Communication Sciences and Disorders.

Minor Requirements

Complete all courses listed below unless otherwise indicated.

Speech-Language Pathology and Audiology Core

Code	Title	Hours
SLPA 1102	Language Development	4
SLPA 1103	Anatomy and Physiology of Speech and Hearing Mechanism	4
